

Innovative idea generates thousands of dollars for DSHS

An employee, called for DSHS to appoint coordinators to all Division of Child Support (DCS) field offices. The coordinators will work with their respective County Treasurer offices. The County Treasurer offices will work together and collect child support debts from property tax foreclosure sales and give that money to DCS. Prior to this year; DCS lost thousands of dollars in excess funds from foreclosure of liens for delinquent real property tax.

With the implementation of this employee's suggestion, DSHS has acquired an additional \$102,737.56 in revenue in 2007.

The Productivity Board is designed to give all state employees,
a chance to be rewarded for innovative thinking.
